Summary

I am a web developer with a strong front-end foundation and enough knowledge in back-end development. I am skilled in creating responsive web applications using React Js and its ecosystem. In addition to my technical skills, I am a strong communicator and team player besides excited to learn and make meaningful contributions to the team continuously.

Work Experience

@FlickMaps – Graphic Designer

March 2021 – Dec 2021

- My role is to create 2D and 3D layouts of community land projects which give detailed information about the site through visual appearance.
- Worked with their guidelines to deliver consistent and high-quality content.
- As a team member handled pressure situations when there is needed and achieved on time.

Education

Bachelor of Engineering in Information Technology

Muffakham Jah College of Engineering and Technology

72%

Skills: JavaScript, HTML/CSS, React/Next Js, UI/UX, Tailwind CSS, TypeScript, MongoDB, Python

Projects

PORTFOLIO WEBSITE

I built this website using Next Js, Tailwind CSS, and Framer Motion. It includes

- Responsive design – Ensuring optimal user experience on a variety of devices and screen sizes.
- Data is rendered using Next Link and Next Router which allows for efficient and seamless navigation between pages.

E-COMMERCE WEBSITE

I built this website using Next Js, Tailwind CSS, Next Auth, Paypal, and MongoDB. It includes

- Cart feature - MongoDB and Mongoose to save and retrieve data like products, orders, etc.
- Users can log in, see order history, add items to their cart, and payment options using payment gateway PayPal.

Hobbies: Sketching, Solving Riddles, Cycling, Listening Music.
